Re: Progress Notes

In order to help your patient with her diabetic shoe needs, we need some more information. The patient needs two items from the Medical Doctor's office.

1. A completed "Statement of Certifying Physician" with ICD10 Codes, see other side and
2. A copy of your progress notes, see the information required in the paragraph below.

In order to process the claim we need a copy of your progress notes which must include all the conditions indicated on the Statement of Certifying Physician, i.e., diabetes, foot deformity neuropathy etc, to name a few. Also the progress notes need to indicate that the patient needs shoes and inserts.

I am sorry for this inconvenience, but it is CMS that requires us to have the information. Please do not hesitate to contact me if you have any questions.

Thanks Michelangelo.
